

Youth Sizing

At last, no more baggy buns!

Do you really think that an elite swimmer and an 8-year old girl on the local swim team should wear the same size suit?

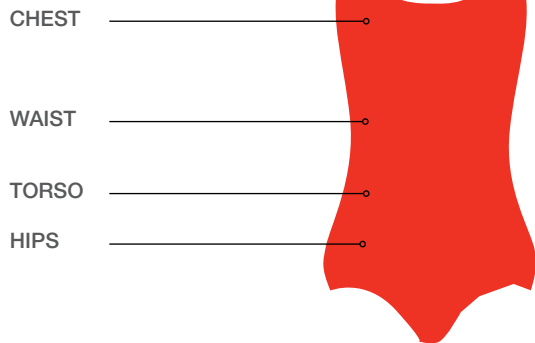

Although the obvious answer is “No,” the performance swim industry has been operating under that assumption for far too long. A ‘28’ was a ‘28.’ Period.

Now, Speedo has launched a revolutionary update to our youth performance sizing to ensure that every swimmer gets the best fit. Period.

THE SPEEDO® SOLUTION

- In both Endurance+ and Xtra Life Lycra®, Speedo youth performance is now specifically fitted for young female swimmers and offered in a dual-sized range showing the youth clothing size and the youth racing size. The range is 6/22, 8/24, 10/26 and 12/28. In some select key team suits we will also offer a 4/20.
- The Adult racing will now be sized from 26 through 40 (42 and 44 in core styles). These adult 26, 28 and 30 suits will be the original racing cut, more suited to the serious competitive female swimmer who sizes down.

MEASUREMENT GUIDE

Female Youth Racing Size Chart

Endurance+	22	24	26	28	
Xtra Life Lycra®	20	22	24	26	28
Girl's Clothing Size	4	6	8	10	12
